CHAIRPERSON OF MEETING

APPENDIX A

RECORD OF QUESTIONS RAISED BY UNITHOLDERS AND THE CORRESPONDING RESPONSES AT THE 16th ANNUAL GENERAL MEETING OF AIMS APAC REIT (“AA REIT”)

<p><u>Question 1:</u></p> <p>With the Perpetual Securities were being refinanced at lower rates and market expectations pointing to a decline in interest rates, would you consider reducing your fixed debt ratio from 85% as at 31 March 2025?</p>	<p><u>Response:</u></p> <p>Ms Lim Joo Lee, CFO of the Manager, shared that through proactive capital management, the recent issuance of \$125 million fixed rate subordinated Perpetual Securities at 4.7% per annum on 18 March 2025 is expected to generate estimated annual interest savings of approximately S\$1.2 million per annum upon redemption.</p> <p>As of 31 March 2025, AA REIT's fixed debt ratio was 85%. However, the fixed debt ratio is expected to reduce to around 70% following the drawdown of the existing revolving loan facility to redeem the S\$125 million perpetual securities due on 14 August 2025.</p> <p>The Manager remains committed to maintaining an optimal fixed debt ratio, guided by prevailing market conditions and outlook. Given the market uncertainty and the potential inflationary impact from the trade tariffs, the Manager will continue to adopt a prudent and flexible approach in managing its fixed debt ratio.</p>
<p><u>Question 2:</u></p> <p>Despite higher revenue and an increase in DPU, NAV has declined. Was this mainly due to the depreciation of the Australian dollar? In this context, can you elaborate on the movement and current balance of the foreign currency translation reserve, and confirm whether the property valuations in AUD have declined as at 31 March 2025?</p>	<p><u>Response:</u></p> <p>Ms Lim Joo Lee shared that the decline in NAV was mainly a result of a lower Australian dollar and lower valuation for the Australian portfolio. Ms Lim added for FY25, the foreign currency translation reserve movements of S\$12.4 million is reflected in the Statement of Movement in Unitholders' Funds presented in line with the accounting standards.</p> <p>Ms Lim also referred to Note 28 (Segment Reporting) in the financial statements that showed total assets for the Australian segment was approximately S\$628 million as of 31 March 2025, compared to approximately S\$711 million in the previous year, a reflection of both currency movement and valuation changes.</p> <p>Mr Russell Ng, CEO of the Manager, shared that the valuations of AA REIT's Australian properties had softened due an expansion in capitalisation rates. However, he noted that capitalisation rates appear to have peaked, coinciding with a downward trend in interest rates. While property valuations may continue to move with market cycles, a prolonged decline is not expected, particularly given the long lease tenures of the Australian assets.</p>

<p><u>Question 3:</u></p> <p>What are the prospects for AA REIT's expansion into the data centre sector?</p>	<p><u>Response:</u></p> <p>Mr Russell Ng shared that AA REIT currently owns one data centre within its portfolio. With demand accelerating, particularly from Artificial Intelligence, the data centre sector is both emerging and highly competitive. Acquisition opportunities remain limited and typically command lower yields. As such, future investment in this sector is more likely to be pursued through development projects rather than third-party acquisitions.</p>
<p><u>Question 4:</u></p> <p>Despite increases in both revenue and net property income (NPI), DPU generally decline with the issuance of new units.</p> <p>With the Reserve Bank of Australia cutting interest rates and SORA trending lower, AA REIT should consider alternative methods of funding beyond equity fund raising, in order to minimise dilution and preserve unitholder value.</p>	<p><u>Response:</u></p> <p>The comment was noted by the Chairperson.</p>
<p><u>Question 5:</u></p> <p>With interest rates declining and current gearing at 28.9%, would it be more beneficial for AA REIT to consider unit buy-back, or to pursue yield accretive property acquisitions?</p>	<p><u>Response:</u></p> <p>Mr Chia Nam Toon (Non-Executive Lead Independent Director) responded that while unit buy-back mandates are generally not exercised, they serve as a strategic tool for the Manager to use when appropriate.</p> <p>Unit buy-back would only be considered by the Manager if the unit price fell significantly below its intrinsic value, offering a more attractive return compared to deploying capital into new projects.</p>
